Re: Combe Fill South Sanitary Landfill
Washington/Chester Townships, New Jersey
Request for Information-Transporters

Dear Sir or Madam:

This correspondence represents a formal inquiry into the business dealings of your company with the Combe Fill South Sanitary Landfill also known as the Chester Hills, Inc. Landfill, Chester Hills Landfill, the Filiberto Landfill and/or the J. Filiberto Landfill. It is the purpose of this inquiry to request information concerning the generation and/or transportation of waste materials by your company to the Combe Fill South Sanitary Landfill.

The Combe Fill South Sanitary Landfill is located in Washington and Chester Townships, Morris County, New Jersey. The landfill operated for approximately thirty years and was ordered closed in 1981. The operations at the site have resulted in the contamination of groundwater resources, including potable water supplies, with various hazardous substances. The site is listed on the National Priority List promulgated pursuant to the Comprehensive Environmental Response Compensation and Liability Act of 1980, as amended. The Department is currently in the process of designing the selected remedial action alternative for the site.

This information is to be forwarded to the Department no later than April 6, 1990.

If you have any questions please call Eleanor Peterson at the above telephone number.

Sincerely,

A handwritten signature in cursive script, appearing to read "George Smajda".

George Smajda, Chief
Bureau of Special Investigations
